## Areas Of Use:

Suitable for use on exterior and interior surfaces including concrete, cement, gypsum and plaster, quick drying provide smooth surface can be sanded, able to over coated with final coating paints.

## Specification Data:

Specific Gravity	1.80 ± 0.05Kg/L
Viscosity	12 ±5 poise
Solid by volume	58 %
Finish	Flat
Coverage	3 m <sup>2</sup> /L with a thickness on 100 micron due to condition of surface and tools of application
Drying time for touch	30 min (Touch dry) at 25C°
Drying time for Recoat	2 hours (Hard dry) at 25C°
Thinner	Not advisable
Thinning	Not advisable
Washability	More than 5000 cycle
Mode of application	Putty Knife – Steel trowel
Cleaning of tools	Water
Flash Point	Non flammable
Storage	2 Years from date of production

## Surfaces Preparation:

The surfaces should be dry, clean and free from contaminates such as grease, oil, dust, which can result in poor adhesion of the paint to the surface.

## New Surfaces:

Surface should be treated with Latex Sealer 1800 or Duraseal, then allow the surface to dry.

Apply one or two coats of Bukky Exterior Putty depending on the surface.

## Repainting:

Cement surfaces should be cleaned with water and soap, rinse thoroughly with water to insure that the surface is free from all contaminates then let the surface to dry well, for flakes or defect painted surface use a sanding paper to release it then apply one or two coats of Bukky Exterior Putty.
